

## **STUDIO AUSTRALIA**

### **HANGING INSTRUCTIONS FOR FLYING BIRDS**

- 1. Don't use picture hooks**
- 2. Do use screws or nails with large heads**
- 3. Remove other birds from wall before hammering a screw or nail (vibrations may cause a fall)**
- 4. Fix the screw or nail into the wall at a slight angle**
- 5. Make sure the back of the bird hangs close to the wall**
- 6. For extra safety use a generous piece of blu-tac on the nail head to help secure the birds in place**
